

## Sometimes I'm a Little Girl

Wynette Tammy

Don't get me wrong I'm still your woman  
But I'm not always all that I should be  
If we're in this love together and we're gonna last forever  
Look at me  
Sometimes you give me more than I can carry  
Do you ever wonder if I ever cry  
Well I do you're just not lookin'  
Or you'd know sometimes I need you by my side

I would stand on a mountain if I thought you would see  
I'm not strong like you've always believed  
I just need some affection I can't hold up the world  
I'm not only your woman sometimes I'm a little girl

Ev'ry time your world is crumbled  
You've always come to me to hold your hand  
I don't mind because I love you  
But there is somethin' you must understand

There are times when I can't be your tower  
There are times I crumble some myself  
And when those moments happen  
I'm afraid I'm gonna need your help

I would stand on a mountain if I thought you would see  
I'm not strong like you've always believed  
I just need some affection I can't hold up the world  
I'm not only your woman sometimes I'm a little girl  
I'm not only your woman sometimes I'm a little girl
