

# Somewhere

Wynette Tammy

I've been on a long and restless journey  
Living on a strong and hungry dream  
Somewhere down the road a warm light shining gold  
Someday soon it's bound to shine on me

Somewhere in my life there waits somebody  
Somewhere in my mind there is a song  
Somewhere in the future ain't so crazy  
Somewhere in the sky the clouds are gone

I've seen the losin' side of easy women  
I've felt the bitter lies of untrue love  
Sometimes on the floor when you just can't crawl no more  
Sometimes you find faith to rise above

Somewhere in my life there waits somebody  
Somewhere in my mind there is a song  
Somewhere in the future ain't so crazy  
Somewhere in the sky the clouds are gone

Somewhere in my life there waits somebody  
Somewhere in my mind there is a song  
Somewhere in the future ain't so crazy  
Somewhere in the sky the clouds are gone
