

## Stayin' Home Woman

Wynette Tammy

I spend the half the day cookin'  
But I wind up havin' dinner all alone  
Because he stopped off with some friends to see  
Just how much they could drink on their way home  
By the time he makes it home the food is just about as cold as  
I am  
And his stayin' home woman is gettin' tired of her stayin' out  
man

He oughta be a Texas rancher  
Cause he sure spreads a lotta bull around  
Tellin' how he won the war he made  
The others finally lay all their weapons down  
But there won't be a big parade tonight  
When a hero comes marchin' home again  
And his stayin' home woman's gettin' tired of her stayin' out m

He's the type of man that likes to brag  
And boast about what little that he's done  
While he's drinkin'  
While he's out with ole friends laughin' it up and havin' fun  
What is he thinkin'  
I know that another woman ain't about to ever cross his mind  
Cause when it comes to lovin' he's comin' home to mine

Well the lawn sure needs a cuttin'  
And the hedges need to be trimmed by the walk  
But each time I mention work to him  
He gives me dirty looks and double talk  
It's a shame to know the one you love  
Won't hardly even lend a helpin' hand  
And his stayin' home woman's gettin' tired of her stayin' out m
