

# The One Song I Never Could Write

Wynette Tammy

Our song, the words never rhyme  
Our song, the one song I never could write

People are dancin' to my music playin'  
The country is hummin' my tunes  
Awards in the hallway, Lincolns' in the driveway  
And old friend that I never knew  
I've got fans who adore me, bankers who bore me  
They hum every song that I write  
But I sure know one song that turned out all wrong  
The one song I never got right

Our song, the words never rhyme  
Our song, the one song I never could write

Now that they're playin' my songs on the jukebox  
On TV and on radio  
The dollars are flowin', comin' and goin'  
From music and words that I wrote  
I've got an unlisted number, accountant and lawyer  
It seems all I do turns out right  
But I sure know one song turned out all wrong  
The one song I never could write

Our song, the words never rhyme  
Our song, the one song I never could write

Our song, the words never rhyme  
Our song, the one song I never could write
