

What My Thoughts Do All the Time

Wynette Tammy

There's that look upon your face every time I look your way
Let's slip away and meet some place
Wanting you the way I do if my conscience don't show through
I'll soon be doing what my thoughts do all the time
I guess I've always known tonight just had to come
You've always had some kind of hold on me
There's one thing I know that's true if you want me I gotta want you
I'll soon be doing what my thoughts do all the time
I'll soon be nestled so close to you trilling knowing baby how much you want me to
If desire takes full control of my body and my soul
I'll soon be doing what my thoughts do all the time
I'll soon be doing what my thoughts do all the time
