

What's a Couple More

Wynette Tammy

After a thousand hurts what's a couple more
It hasn't killed me yet but who can tell
At least I know the risk I've been there before
There ain't nobody else right now so I guess I might as well

Dance one more dance with you
Chase one more chance with you
Waste one more night with you
Like all the nights before
A thousand tears won't win you
A thousand years won't change you
But once you've shared a thousand tears
What's a couple more

And after a thousand lies what's a couple more
Tell me just the ones you know I'll buy
Make me think that I've got a chance for sure
Put a smile upon my face so I won't have to cry

Till I've danced one more dance with you...
I wanna dance one more dance with you...
