

# You Never Cross My Mind

Wynette Tammy

I lay there every night where you loved me  
And I'm used to nights that go by slow  
I wake up ev'ryday where you left me  
Wonderin' which way the days gonna go

But you never cross my mind  
Though I cry from time to time  
No you never cross my mind  
You stay there all the time

From time to time my eyes'll find your picture  
The one I forgot to put away  
Another mem'ry tryin' to make me miss you  
And I find one more reminder ev'ry day

But you never cross my mind  
Though I cry from time to time  
No you never cross my mind  
You stay there all the time

But you never cross my mind  
Though I cry from time to time  
No you never cross my mind  
You stay there all the time
