

Choose to Believe

Wynonna Judd

Well, sometimes when times get tough
We treat each other good enough
But we keep the peace best we can
And that ain't easy for a woman and a man

But we choose to believe
Choose to believe in love

I know you know me very well
But sometimes you get mad as hell
When I'm worrying you half to death
Just take a step and take a breath

Choose to believe
Choose to believe in love
Yes, we choose to believe
Choose to believe in love

Now we'll end this for along ride
[?] side by side
That's the secret, that's the truth
Our love is bulletproof

Choose to believe
Choose to believe in love
Cause we choose to believe
Choose to believe in love

Choose to believe in love
Choose to believe in love
Choose to believe, choose
