

Iron Butterfly

Wynonna Judd

Come out-reach out
Help someone under clouds over cast
That's what life's about
Iron butteries can't fly
Oh, IRON BUTTERFLY,
IRON BUTTERFLY

The shadow is as important
As the light
There's something we learn in both
Oh, cast the showdows
From your saddened eyes
Iron butterflies can't fly
Oh, yea IRON BUTTERFLY

Polish away rusty composition
Polluted metallic can't have-can not
Oh, smile away poisoned thoughts
IRON BUTTERFLY
Iron butteries can't fly

The shadow has definate purpose
For understanding
The simple lesson of trust
Oh, dark shadows
Never, never last long
It's time to be tough
IRON BUTTERFLY
IRON BUTTERFLY

It's universal in thought
Light and dark
Ther's lessons in both
When we ask for help
Through God's transition
We learn to fly
Oh, IRON BUTTERFLY
Iron butterflies can't fly
