

## My Angel Is Here

Wynonna Judd

They say there's a state of heaven  
Somewhere way beyond the clouds  
I know there's a piece of heaven  
In every little thing that you do  
'Cause every time you walk in the room  
My angel is here

I'm so protected and heaven's so near  
When I am under your wing  
My wounds are healed and my spirit is clear  
Come on angel make my heart sing

So when I'm lost and alone who will find me  
Who's there whenever I call  
Show me the way to the strength that's inside me  
Pick me up whenever I fall

You say love is no conditions  
Each soul is free to come and go  
Stay strong I don't need permission  
'Cause paradise is waiting for me  
Every time I hear my heart speak  
My angel is here
