## My Angel Is Here

## Wynonna Judd

They say there's a state of heaven
Somewhere way beyond the clouds
I know there's a piece of heaven
In every little thing that you do
'Cause every time you walk in the room
My angel is here

I'm so protected and heaven's so near When I am under your wing My wounds are healed and my spirit is clear Come on angel make my heart sing

So when I'm lost and alone who will find me Who's there whenever I call
Show me the way to the strength that's inside me Pick me up whenever I fall

You say love is no conditions
Each soul is free to come and go
Stay strong I don't need permission
'Cause paradise is waiting for me
Every time I hear my heart speak
My angel is here
