

Staying in Love

Wynonna Judd

You see now
When I met you, we have chance
I'm so good now cause you kiss me
I couldn't plan this and that's why
I'm so grateful, I feel the sunshine
Boy, you changed my life, you made me see
That I never have to cry
The more we listen, the more we know
Let's take a stand for today

Falling in love can be easy
Staying in love is so tricky
Falling in love can be easy
But staying in love is so tricky

You know I love the way you hold me
I tell the girls I found a good man
Took me places, babe, I'd never gone
What am I thinking? Boy, I swear
When you put your hand in mine
I know that we are the best of friends 'til the end
Who would've thought after all this time
We'd be living, yeah, living separate lives

Falling in love can be easy
Staying in love is so tricky
Falling in love can be easy
But staying in love is so tricky

Oh, baby, I love you
And I know you love me, too
We both know it's worth it
So let's make this right

Falling in love can be easy
But staying in love is so tricky
Falling in love can be easy
But staying in love is so tricky
Falling in love can be easy
But staying in love is so tricky
Falling in love can be easy
But staying in love is so tricky
