

## The 1st

X-Dream

Nanotechnology, cyronic suspension  
Dna mapping, clonning a human  
Mutant cybernetics, merging man and machine  
Euphoric neural nets vs. synthetic logic regime

Cyborg informatics recrafting bodies  
Artifical intelligence, C31 operations coding  
Multiple data bases, umbilical network  
Breath engine, indestructible heart

(refrain)

We are the first of cyber- evolution  
We are the first to program your future  
We are the first, we are the last...
