

Give Me the Pleasure

X Japan

Silence all around
I feel good
oh! what's going on, fuck the blood

Give me the pleasure, more than this
that's mental destruction
I hurt myself and I reach a stage of pain
cry out, writh around

Give me the pleasure
that's destruction of famed mentality
I hurt myself and I reach a stage of pain

start the show that destroy all
people that has gone mad kill each others
actually, truth gonna be destroyed
and the truth of feint is made at all

truth, this is not going to exist anywhere
not this must not exist
pleasure of spirit, it's just all in my life
but I don't know, don't know only that, I don't know...

so truth isn't exist anywhere
imagination is truth

Give me the pleasure, more than this
cry out, writh around
