

# Don't You Know

X-Perience

Don't you know  
Don't you know  
Don't you know

Don't you know what I feel babe  
You put your magic hands on the wheel  
When you're driving the car  
I will kiss you as far  
As fallen angels do that  
all the night

Take my hands off the wheel  
Doing 215  
Close my eyes, count to 5  
And we're still alive now

I can't take my hands of you baby  
I'm feeling so blue  
without you  
I can't get you out of my mind  
And I know that my dreams  
come true, come true

Don't you know what I feel babe  
You put your magic hands on the wheel  
When you're driving the car  
I will kiss you as far  
As fallen angels do that  
all the night  
Don't you know  
Don't you know  
As fallen angels do that  
all the night, all the night

And I switch off the light  
A quarter to midnight  
Leave the road to a field  
Taking a wild ride

Better look back if you run away from me, my friend  
Tonight  
I would do anything to let you know you can hold  
me tight all the night

Don't you know what I feel babe  
You put your magic hands on the wheel  
When you're driving the car  
I will kiss you as far  
As fallen angels do that  
all the night

Don't you know what I feel babe  
You put your magic hands on the wheel  
When you're driving the car  
I will kiss you as far  
As fallen angels do that  
all the night

Don't you know  
Don't you know  
Don't you know  
Don't you know  
As fallen angels do that  
all the night
