

# Take Me Home

X-Perience

Take me home  
Please take me home  
To the place where I was born  
Take me home, take me home, take me home

I don't want any friends  
In my new home  
'Cause I'd prefer to stay  
There all alone

You told me  
"I would like to be with you"  
Now you're gone  
And everything's so strange and new

I love my friends  
And you know I miss them so  
I miss my friends children  
And I miss watching them grow

Take me back to the place  
Where I was born  
'Cause it's the place where  
I feel like being home
