

We Are What We Are

X-Perience

Open your eyes
And you will realize
We are what we are

Open your eyes
And you will realize
We are what we are
We're going to fight
The fight for our right
We are what we are

I want to play a melody
I want to sing a song
Come, sing it with me
A sweet melody

We want to shout it out
That we are going to be free
Come, sing it with me
We're going to be free

Open your eyes
And you will realize
We are what we are
We're going to fight
The fight for our right
We are what we are

We want to feel like being free
Free, as a bird can be
It's only a dream
But dreams can come true

We want to leave the bad times
We leave everything behind
We leave everything behind
And we sing

Open your eyes
And you will realize
We are what we are
We're going to fight
The fight for our right
We are what we are
