

## Proven to Be Broken

Xasthur

It ran its course, no more beating a dead horse  
Can't keep on depending on something that's ending  
What would make you the one  
To change what's already been done?  
Take a look at your life and why it stays  
The same, it's time to take some of the blame  
The company you don't want

Is the company you keep  
Drowning in water that's not too deep  
Take a look at your life and why it stays  
The same, it's time to take some of the blame  
Standing behind a system proven to be broken  
Find the answers that go unspoken
