

Apistat Commander

Xiu Xiu

All
All along the rocks
It's good
It's not so hard now

I
I bite my tongue
Who cares?
There's chance to draw on

Once you left, you left for someone
All that's left has wilted up
Oh this relief, it's the hardest thing
Oh my God, oh my God, oh my God

Once you left, you left for someone
All that's left has wilted up
Oh this relief, it's the hardest thing
Oh my God, oh my God, oh my God

Children
He'll never come
I know it's written
I lost my thumb

He
Could talk me down
Still lost it
It's just her goal

Once you left, you left for someone
All that's left has wilted up
Oh this relief, it's the hardest thing
Oh my God, oh my God, oh my God

Once you left, you left for someone
All that's left has wilted up
Oh this relief, it's the hardest thing
Oh my God, oh my God, oh my God

Once you left, you left for someone
All that's left has wilted up
Oh this relief, it's the hardest thing
Oh my God, oh my God, oh my God
