

Beauty Towne

Xiu Xiu

three boys in a burning panzer
doing nothing not to shove our throats in the flames
we shan't let go
oh friend oh foe oh friend oh foe
beauty towne
how little have we learned
beauty towne
the fruit that we deserve
and we had and we had
and we had more than we could take
three orcs under plague of darkness
and like Egypt, we had it coming all along
i won't believe
oh fiend oh foe oh fiend folio
beauty towne
the hair remains the same
hanging the rope of shame
and we tried and we failed not to live this way again
