

I'll Be Near You

Xmal Deutschland

Now you've gone away and I am left behind
I won't ask you to take me along
But when you turn this crystal in your hand
You call me
Wherever you stay I will be around
I'll watch every move you make night and day
I'll be there whatever you do
Just call me

I will be near you
Wherever you are
I will be near you
I'll walk beside you
Wherever you go
I will be near you

When you close your eyes
And try to touch my mind
I'll be the vision and voice that you hear
I'll be a part of all the things you see
Just call me
Wherever you stay, whatever you do
I'll be the spirit of all the steps you take
Just hold this crystal in your hand
And call me

I will be near you
Wherever you are
I will be near you
I'll walk beside you
Wherever you go
I will be near you
