

Blood Honey

Xov

Tell me what you want from me? (want from me)
I just want your blood honey (blood honey)
You know what you are to me? (are to me)
Nothing but spilled blood honey (blood honey)
Oh, oh, eh, oh, oh, eh, oh
Blood honey, blood honey

With you I felt it, this euphoria
I saw the peaks of my utopia
We talked about a life in Saigon
To leave it all and move to the sun

But you broke our code of honor
You set fire to my nirvana
Now you want me back again
But I just wanna get even

Tell me what you want from me? (want from me)
I just want your blood honey (blood honey)
You know what you are to me? (are to me)
Nothing but spilled blood honey (blood honey)
Oh, oh, eh, oh, oh, eh, oh
Blood honey, blood honey

There was a time I wanted vengeance
But staying mad and hurt makes no sense
I even thought about forgiveness
To let it go without regrets

But you broke our code of honor
You set fire to my nirvana
Now you want me back again
But I just wanna get even

Tell me what you want from me? (want from me)
I just want your blood honey (blood honey)
You know what you are to me? (are to me)
Nothing but spilled blood honey (blood honey)
Oh, oh, eh, oh, oh, eh, oh
Blood honey, blood honey

Oh, oh, eh, oh, oh, eh, oh
Blood honey, blood honey
