

King Of The City

XV

Yeah, this is me man
This is just me
Im just a boy from Kansas
Been alll around the world
Seen different things, you know
But this is me

I don't drink or smoke, I do my thing
I just do my songs, make my beats,
I just roll with my dogs, keep my peace,
But if y'all want beef I keep my peace
I don't club too much I stay at home,
I like to cruise a lot, don't answer the phone
I got my girl wifed up don't need no more
I might not live too long I see the globe
I'm humble and cool ask my dudes
Like Sez and Bling, Ace and Dubes
Or Stringer and Block, 7 and Bounce
Or haters that know me around the town
I'm king of the city I made that crown
So if you want once we can battle it out
I have a lot to say so I stay with the pen
You can break it down in the end

I'm just a boy from Kansas
No matter where you go don't forget where you come from
I'm just a boy from Kansas
When the heart is in your home you know that's where you from
I'm just a boy from Kansas
You went all around the globe but you know that's where you from
I'm just a boy from Kansas
You're still that boy from Kansas just tell 'em where you're from

I like oldies n rap benzes n lats
I got homies who work, homies who track
I done did both wont never go back
I love spitting giving you my picture through tracks
I'm a city boy from the ICT
Don't confuse it with the country homie come and see
We the middle of the map figure cuz I rap like
East coast west coast bring it all back
I like air force 1s bapes is cool
I like Chuck Taylors or some skater shoes
You like this dude seem hella confused
Nah homie that's just how I do
You never knew
I'm complex
I went to black and white schools
Took a little from the bad, took a little from the good
Took white people had brought it back to the hood
I'm sorry if I'm misunderstood

I'm just a boy from Kansas
No matter where you go don't forget where you come from
I'm just a boy from Kansas
When the heart is in your home you know that's where you from
I'm just a boy from Kansas

You went all around the globe but you know that's where you from
I'm just a boy from Kansas
You're still that boy from Kansas just tell 'em where you're from

You can catch me on the block with my crew
If I'm not posted I'll be driving on through
Chuckin the deuce is up with crippls and bloodz
Folks, whoever homie I show everyone love
Holla if you see me on your block if you see me on the grind
Just throw the boy a sign holla at me man
If I'm rolling through your city yea you see the boy busy
Even If I look fly take a flick mayne
I don't do much fair
I don't skate but I dress like a skater that's just who I am
I still rap for my d boys
Moving grams and all white like the ku klux klan
We rock whatever's hot it come through the middle
I'ma make the game take a break for the middle
If I was to die how would you describe me
This here is X to the V

I'm just a boy from Kansas
No matter where you go don't forget where you come from
I'm just a boy from Kansas
When the heart is in your home you know that's where you from
I'm just a boy from Kansas
You went all around the globe but you know that's where you from
I'm just a boy from Kansas
You're still that boy from Kansas just tell 'em where you're from
