

# Ecstasy

XXXTentacion

I thought you got all you came for  
Lover, lover  
Kicking up doubt when it's sore  
It's going to be covered in dark  
You came all this way for a door, watching others break it down  
Now I see what you came for, lover  
All or nothing aren't the same score

(I thought you got all you came for)  
Thought I lost my mind  
With the pastor preachin', or the picture paintin'  
With a heart embracin'  
Ever since, from the Southside  
Sorted out in a archive, for the black price, suitcase and a black tie  
How profound, I find it funny  
No explainin' how I lost my self  
But I'm chillin' in the bookshelf  
With a pocket knife, slit your wrist with your act to right  
Such is life  
Ecstasy, slit wrist, and a vagabond  
Vagabond, vagabond, you're my ecstasy

Ah-ah  
Are you tasting me?  
But I miss you and I hate you  
Ah-ah  
But I need you, and I love you more  
Every minute  
Ah-ah  
In January, and December, I want you  
Ah-ah  
You're my ecstasy

Shut it down, going to take you outside (Oh)  
Sifting up a reason from the lonely dirt (Woah, woah, woah)  
When it's over, you'll be golden (Woah, woah, woah)  
Over, over (Over, over, over)  
Shut it down, going to take you outside (Woah, woah, woah)  
Sucking up the dust from your static crown (Oh, God, oh, God, oh, God)  
Oh, just to turn away, and you'll be golden (Hello, hello)  
Over, over (Woah, What? What?)

I think you got all you came for  
But do you want more?  
Easy is overdone, overdone  
Is it gonna be right this time?  
Is it gonna be golden?  
Is it gonna be right this time? (Right, right, right, oh)

Push drugs in my pocket  
I'ma pull it out and then pop it  
I'm a common case of a ganja blaze  
And my mind is fading quite frankly (Oh)  
It's a tricky course, never that way  
Give my mind a question  
What kind of sorcery is this?  
Dark night and a night eclipse

Lacy, Lacy, Lacy  
One more request  
Release my pain (Ha)

Did you think you got all that you came for?  
Lover, lover  
Easy is the way you free fall  
Into the lap of inertia  
I think you got all you came for  
But do you want more?  
Easy is overdone, overdone  
Easy is the way you free fall  
Into the lap of inertia  
Easy is the way you free fall  
Into the lap of inertia

Easy is overdone, overdone  
Easy is overdone, overdone  
Easy is overdone, overdone  
Easy is overdone, overdone
