

I Believe In You

Yacht

your magic's real so why aren't you using it
you could have the world for yourself
you don't ever have to worry about losing it
the magic inside of you is infinite

when was the last time you drew a picture
when was the last time that you touched a leaf
when was the last time you tasted raindrops
on your tongue on your big long tongue

your magic's real so why aren't you using it
you could have the world for yourself
you don't ever have to worry about losing it
the magic inside of you is infinite

when was the last time that you bought a hot dog
when was the last time you swam in a pond
when was the last time that you climbed a lamppost
like a monkey with a [?] tail

when was the last time that [?]
when was the last time that you told a lie
why is there a picture of a penis on your 'fridge door?
it makes me feel awkward

your magic's real so why aren't you using it
you could have the world for yourself
you don't ever have to worry about losing it
the magic inside of you is infinite
