

## Meme Iren Song

Yael Naim

see the river when it flows  
she said it long long time ago

hear the way the flowers grow  
she said it long long time ago

and now I see your face  
and now I feel your grace

feel the seasons when they go  
she said it long long time ago

see the way the lovers know  
she said it long long time ago

and now that you are gone  
and now we're on our own

cause now it's time for you to go  
you came here a long long time ago

you told me not to be afraid of the storm  
it only brings you back home
