

Friends In High Places

Yashin

You think you can stop us in our tracks
Now it's all gone wrong
You've had your 15 minutes let's move on

You think I can't see what you're doing

It won't be, it won't be long, o'course it won't
It won't be, it won't be long, o'course it won't
The clocks will turn to our time
It won't be long
It won't be, it won't be long, course it won't

It's someone you love, which soon you loath

And you think I can't see what your doing
You think I can't see

It won't be, it won't be long, o'course it won't
It won't be, it won't be long, o'course it won't
The clocks will turn to our time
It won't be long
It won't be, it won't be long, course it won't

This is the stage, you don't belong
(Ahhhhh)

This is the stage, you don't belong

And you think I can't see what your doing
You think I can't see

It won't be, it won't be long, o'course it won't
It won't be, it won't be long, o'course it won't
The clocks will turn to our time
It won't be long
It won't be, it won't be long, course it won't

Woo

This is the stage, you don't belong
