

Dull Life

Yeah Yeah Yeahs

One mistake in a subtle way
Like I'm walking again, all on me
Step slowly, you know that you fall between
Dark places, what a simple web we weave

We sing the nightmare of the lies that you speak
The beast that I lie beneath is coming in
We sing the nightmare of the lies that you speak
The beast that I lie beneath is coming in

Know my cell
Know my cell
Well, all hail
the prison queen
Iron bars
Iron heart
Iron bars
Everything

A hundred years old
A hundred years old

Last on the village scene
Fall apart
Iron heart
More alive than you've ever been

We sing the nightmare of the lies that you speak
The beast that I lie beneath is coming in
We sing the nightmare of the lies that you speak
The beast that I lie beneath is coming in

Well, it's a dull life
It's a dull life
It's a dull life
It's a dark place
It's a dull life
It's a dull life
It's a dull life
It's a dull life

Know my cell

We sing the nightmare of your lies
We sing the nightmare of your lies
We sing the nightmare of your lies
We sing the nightmare of your lies
We sing the nightmare of your lies
We sing the nightmare of the lies that you speak
The beast that I lie beneath is coming in
We sing the nightmare of the lies that you speak
The beast that I lie beneath is coming in

Know my cell
