

## I Wish I Knew

### Years & Years

My nights always begin with some lies  
Always end up with some fights  
I'm gonna take you out

I wish I knew  
How to be have like a human  
I wish I knew  
More than my father before me.

If you wear this night  
You can see forever  
If you wear this night  
You can see forever.

My nights always begin with some lies,  
Always end up like

I wish I knew  
How to behave like a human  
I wish I knew  
More than my father before me, I.

If you wear this night  
You can see forever  
If you wear this night  
You can see forever

Long to give yourself in nightly. [x7]

My nights always begin with some lies,  
Always end up with hope.
