

# Silly Me

Yeasayer

Silly me, overreacting  
Need to practice my apologies  
Swear to not disagree anymore  
I still never know which  
Words I'm supposed to say  
I will tell her I'm sorry  
Always one step too late

Oh, silly me  
Where's my head?  
I can't believe now it's over  
She would be here if it wasn't for  
Silly me, silly me  
Oh, silly me  
Where's my head?  
I can't believe now it's over  
She would be here if it wasn't for  
Silly me, silly me

She said "Are you kidding me?"  
Your narcissistic behavior  
Has been killing me  
For three years or maybe more  
I could tell that your love was  
Doled out in abuse  
You're just a child growing older  
Now find another muse

Oh, silly me  
Where's my head?  
I can't believe now it's over  
She would be here if it wasn't for  
Silly me, silly me  
Oh, silly me  
Where's my head?  
I can't believe now it's over  
She would be here if it wasn't for  
Silly me, silly me

Suppose our parties now agree  
On the writings drawn and the lawyers fee  
With crystal ball I now can see  
That I'm a man of low degree  
She never thinks of rich or poor  
And with my knees down on the floor  
I am a dog of roguish war  
I have favor with you no more

Oh, silly me  
Where's my head?  
I can't believe now it's over  
She would be here if it wasn't for  
Silly me, silly me  
Oh, silly me  
Where's my head?  
I can't believe now it's over  
She would be here if it wasn't for

Silly me, silly me
