

Alreadydead

Yendri

I thought you were already dead
I thought you were already gone
I thought you were already dead
I thought you were already gone
Now you are back again
And I can hold you in my arms
Now you are back again
And I can hold you in my arms

Are you not already dead
Cause it is driving me so me
Your personality is gone
And everything you ever had
And I can hold you in my arms
I thought you were already dead
I thought you were already gone
