

## I Will Find You

Yendri

"And we all tripped off into the sunset  
With a happy song on our lips"  
"Don't I seem inordinately happy to you?"  
"Well, I guess that makes me the outside-person"  
I will find you  
I will take you away  
Into the darkness  
Where there is no day  
Don't you see  
the evil is inside of me  
Don't you feel it,  
don't you know it yet
