

Kiss Your Eternal Infinity

Yendri

When the lights go out then I can see
Then I know what you have been for me
I often think of the time we've lost
And I don't know what concerned me most

Hey,
Kiss your eternal infinity, kiss your eternal infinity,
kiss your eternal infinity, you will never return to me
Kiss your eternal infinity, kiss your eternal infinity,
kiss your eternal infinity, you will never return to me

On the bridge I stand I'm looking down
The idea of jumping makes me frown
I remember you have been here too
But since you jumped I'm missing you

Kiss your eternal infinity, kiss your eternal infinity,
kiss your eternal infinity, you will never return to me
Kiss your eternal infinity, kiss your eternal infinity,
kiss your eternal infinity, you will never return to me

I will not forget how you felt
In the dark night when we melt
A piece of me is still inside of you
I'm half the man now, what can I do

Kiss your eternal infinity, kiss your eternal infinity,
kiss your eternal infinity, you will never return to me
Kiss your eternal infinity, kiss your eternal infinity,
kiss your eternal infinity, you will never return to me
