

Little Mirror

Yendri

I cannot feel myself
I can't hear my voice
Moving without motion
I have no other choice

Little mirror on the wall
Tell me what I see
I can't believe it all
Is it really me

We are watching you
We know the truth
Don't try to hide
We see everything

I'm here and everywhere
But I'm alone
I have many places
That I call home

little mirror...

I'm lost in paradise
I know what's all about
Now that I paid the price
I can't log out
