

## If We Fall In Love

Yeng Constantino

there will be no ordinary days for you  
if there is someone  
who cares like i do  
you have no reason to be sad anymore  
im always ready with a smile  
with just one glimpse of you  
you dont have to search no more  
cause i am someone who will love you for sure  
so... if we fall in love  
maybe we sing this song as one  
if we fall in love  
we can write a better song than this  
if we fall in love  
we will have this melody in our heads  
if we fall in love  
anywhere with you would be a better place  
you can watch sad movies in a different lights  
cause i will be right there beside you  
hugging you oh so tight(oh so tight)  
your hands will never feel so cold and empty again  
cause i will keep on holding on  
and wont let go(never let you go)  
you dont have to search no more  
cause i am someone who will love you for sure  
so... if we fall in love  
maybe we sing this song as one  
if we fall in love  
we can write a better song than this  
if we fall in love  
we will have this melody in our heads  
if we fall in love  
anywhere with you would be a better place  
it feels so good when your around  
one smile from you  
makes my day feels so right  
so... if we fall in love  
maybe we sing this song as one  
if we fall in love  
we can write a better song than this  
if we fall in love  
we will have this melody in our heads  
if we fall in love  
anywhere with you would be a better..  
place...
