

Sex Therapy 101

Ying Yang Twins

Good evening ladies welcome to Sex Therapy 101.

I am your doctor Chris Olmen here.

And we are gonna do the 3 basic elements of sexual gratification today.

And what were talkin about is 3 simple questions, and I'm gonna post question #1 right now.

I like for a man to step up to me with swagger.

Know what you want and take control with me, fuck the dumb shit .

He's a nigga that knows what he doing.

Cause I ain't trying to teach no nigga.

I like a dude rockin some tims, a white tee off a tee hat with that confidence that's makin his way over to me like I'm the only 1 in the room.

Oh, and don't come to wit does played out lines, what's your signs, what cha mix with.

Ehh, If you honestly want me act like it, come in with some originality and in that right moment if you tell me the right thing and touch me the right way, you got me.

See baby, alot of people don't know this about me but, I likes a freak, I like a mothafucker who's sharp, gots, his shit together who knows that I'm the 1 he wants.

You know the look dead in my eye grab my on the sly.

Step to me and sniff my urban essence, put his lips up to my ear and whisper exactly what he wants from me.
