

Waited just a little bit too long  
Stopped mattering why  
When does a thing alright turn wrong  
And X turns to Y  
If there is a way she'll admit she's wrong  
She wonders why he went away.  
He never said that much at all.  
He's waited real hard for things to change  
to something she won't criticize  
He's real mad and thinks about nothing  
nothing at all, then the feeling dies  
If there is a way she'll admit she's wrong  
She wonders why he went away.  
He never said that much.  
If there is a way she'll admit she's wrong  
She wonders why he went away.  
He never said that much.  
If there is a way she'll admit she's wrong  
If there is a way she'll admit she's wrong
