

# Night Falls on Hoboken

Yo La Tengo

Frightened face  
Worried dream  
Break my heart  
With your sad scream

Sun is down  
Spirits low  
Hate my impatience  
And here I go

Come on, let's leave our misery  
And crawl toward where we want to be  
Can't we try?  
Can't we try?

Come on, sleep one night peacefully  
When I'll yawn all day easily  
And rest up my mind

Weary guise  
Mine the same  
Why so worried?  
You can't explain

Come on, let's leave our misery  
And crawl toward where we want to be  
Can't we try?  
Can't we try?

Come on, sleep one night peacefully  
Then I'll yawn all day easily
