

## The Weakest Part

Yo La Tengo

Stars will fall from the sky  
And daylight will realise  
Your pain would subside  
If not for the weakest part  
Of your heart

Bells ring out endlessly  
Seem hard to ignore  
But you, like a fool,  
Just don't see  
It preys on the weakest part  
Of your heart

Some sunny day  
The wind will come along  
And scatter the dusty sleep  
And you'll open your eyes

Stars could fall right out of the sky  
If not for the weakest part  
Bells will ring til the end of time  
If not for the weakest part  
Someday soon it'll be alright
