

## Up To You

Yo La Tengo

Hold a mirror on your own true heart  
You'll leave it to me or I won't let go  
It's up to you

It wears me out  
It's up to you

Take the beeline to your safety net  
And don't wait for me  
I'll only slow you down  
It's up to you

It wears me out  
It's up to you  
It wears me out  
It's up to you

When I go, you're already gone  
When I go, you're already gone  
When I go, you're already gone  
When I go, you're already gone
