

# Paradise

YONAS

I'm here to save the game  
I told you on my second album, man it's still the same  
I got a lot of people hoping that I never change  
Cause they find a little hope in all the things that I be sayin  
,

So welcome to my paradise, and all the things around it  
I used to feel alone but now I feel like I'm surrounded  
So thank you to my angels, and the man that's up above  
And my only competition, that artist that wore a glove  
I'm chasing legends, so I guess I'm chasing heaven  
I'm placing bets and breaking odds and rollin' lucky 7's  
Shit I'm celebrating life so pour a glass and have a cheers  
'Til I'm gone I know my paradise is here... Yeah

These rappers claim they got a lane yo  
I've got a freeway so I swerve with out no shame tho  
I lost a friend aboard that suicide plane  
And ever since she left for paradise my life ain't have the same glow  
So fuck these rappers I swear  
I'm just leaning back with my beer  
I'm just trying to make it thru life  
I'm just trying to tackle my fears  
I'm just trying to make a few raps to show the people that some  
one does care  
And if you need a paradise it's here  
...it's here
