

Set It Off

YONAS

I see you 'round the corner 'bout to set it off
But I don't really care man let's get it all
You see I got my fucking crew here with me
So if you want a problem come and get me
I see you 'round the corner 'bout to set it off
But I don't really care man let's get it all
And Yea I got my fucking crew here with me
So if you want a problem come and get me

We all buy the drink that they shovelling
They say the truth it's so troubling
But I speak the truth and every time I tour my fan base they do
ubling
From New York out to Dublin
I'm hot boy, I'm bubbling
These CDs I'm smuggling
They try to decode my publishing
Cause they don't really like what my ink write
My flow dirty like a sink pipe
Plus the pinky ring got the Ernest stone, when the girls see it
they can't think right
Don't believe it then blink twice, I'm a wonka wonka from the t
hin slice
You thought process is on a runway, but my inside is inflite

So I'm throwing rocks at this glasshouse for the people that ma
ke this mousetrap
Standing at that front door but I got an army that's outbacked
Got a good mind but all about that for survival guide I rewrote
that
Cuz most people say they wouldn't take a shot if they had to, b
ut i doubt that
The Heat is over, It's cold now
The reaper coming, for these soul now
Cuz everybody 'round me got a gun
You'd be stupid as some motherfucker walking 'round without one

I see you 'round the corner 'bout to set it off
But I don't really care man let's get it all
You see I got my fucking crew here with me
So if you want a problem come and get me
I see you 'round the corner 'bout to set it off
But I don't really care man let's get it all
And Yea I got my fucking crew here with me
So if you want a problem come and get me
