

Livin' My Life

Young Dolph

Bottles of Champagne, and back to back flights
They say I'm doing too much, I say I'm just living my life
I'm just living my life
My life is a gamble, and everyday I roll the dice
[?] love to wear ice
If I want it I buy it, I'm just living my life
I'm just living my life, I'm looking for a pretty girl that wanna spend the night

Looking for a pretty girl that wanna have a sleepover
And she gotta be one hell of a deep throater
Go to the jeweler, spend a hundred, don't think twice
Don't worry about me my nigga, I'm just living my life
Flights back to back
Went platnom, now my trap niggas sack for sack
[?] stack to stack
The illest in the building, nigga that's a fact
Been flipping money, call that acrobat
I used to sell weed before and after class
The way I [?] around the gloab, call that jumping jacks
Dolph shit, I got the whole world bumping that

Bottles of Champagne, and back to back flights
They say I'm doing too much, I say I'm just living my life
I'm just living my life
My life is a gamble, and everyday I roll the dice
[?] love to wear ice
If I want it I buy it, I'm just living my life
I'm just living my life, I'm looking for a pretty girl that wanna spend the night

Before my uncle died, he said young nigga, just live your life
Have a couple kids, go get you a wife
No disrespect, unc but these hoes ain't right
So I'm like fuck 'em, and I keep living my life
I got a big money apitite
Bitch [?] acting right
In the streets, that's some shit you gotta sacrifice
Money come from everywhere, from left to right
From the heart, I can truely truely say I'm blessed
Self made nigga, never settle for the less
I stay high, I'm just living my life
That's a million dollar portion, me and my guys

Bottles of Champagne, and back to back flights
They say I'm doing too much, I say I'm just living my life
I'm just living my life
My life is a gamble, and everyday I roll the dice
[?] love to wear ice
If I want it I buy it, I'm just living my life
I'm just living my life, I'm looking for a pretty girl that wanna spend the night
