

# Everythang

Young Jeezy

Yeah  
Wassup  
Count money, get money, count money

I used to have nothing  
But now I got a whole lot of everythang  
And I come through stuntin'  
And now the whole world gonna know my name  
And I used to have nothing  
But now I got a whole lot of everythang  
That's why I come through stuntin'  
When I'm gone the whole world gonna know my name

12 years old, caught up in that street life  
I was tryna shine harder than the street lights  
Ran the streets tongue-tied, couldn't sleep nights  
Cause when you're living wrong, it's hard to sleep right  
But it is what it is, gotta eat right  
Cop them things they be whiter than your teeth right?  
Drank some big things on my grandmama couch  
It's some mink things at my grandmama house  
Cuz when you play the game every strike counts  
And why they call them 8balls? Cuz they don't bounce  
Bag full of weight down in the crack yard  
But you can't get 'em out until it's

I used to have nothing  
But now I got a whole lot of everythang  
And I come through stuntin'  
And now the whole world gonna know my name  
And I used to have nothing  
But now I got a whole lot of everythang  
That's why I come through stuntin'  
When I'm gone the whole world gonna know my name

What it do nigga? 1 triple zero  
Who you be nigga? Neighborhood hero  
Dope game, no shame, nigga more pain  
See them enough to drive a young nigga insane  
From the windows of the trap, see the prison bars  
Flashing lights on top, we call them prison cars  
For my niggas make a livin' on they mobile phone  
Grind hard till your earrings cost a mobile home  
Ain't nothing wrong with that, get your mobile on  
Get the bricks butt naked, get your troubles on  
All the other bullshit I could have focused on  
Said fuck that shit and kept my focus on

I used to have nothing  
But now I got a whole lot of everythang  
And I come through stuntin'  
And now the whole world gonna know my name  
And I used to have nothing  
But now I got a whole lot of everythang  
That's why I come through stuntin'  
When I'm gone the whole world gonna know my name

Yeah they try to stop a nigga but I won't let 'em  
See the wheels? How the fuck you ain't gon sweat 'em  
Bet you one thing, bet you niggas won't bet 'em  
G5 take off, you know I'm gon' jet 'em  
Road trips ain't shit, you know I go get 'em  
Plus my man send his check, you know we gon' split 'em  
Now so many shoes that I can't wear  
From that real nigga cloth, that's why you can't tell  
Always knew that I'd make it out someday  
Traffic jam, I was going down the one-way  
Twelve used to hit the block, I had to run away  
Now this nigga be flyin' in the runway

I used to have nothing  
But now I got a whole lot of everythang  
And I come through stuntin'  
And now the whole world gonna know my name  
And I used to have nothing  
But now I got a whole lot of everythang  
That's why I come through stuntin'  
When I'm gone the whole world gonna know my name
