

## Repeat

## Young the Giant

Somewhere in the forest  
Where the waters meet  
Lie the days before us  
Spinning on repeat  
There's darkness through the doorways  
Silence in the streets  
There's something in the stillness  
A distant memory

Show me love, fill my cup  
The world's not empty  
It's how you want it to be  
Push and pull, the glass is full  
Float on an ocean  
We're caught up in the motion  
So we move  
(We just move, we just move)  
(We just move, we just move)  
Somewhere in the mountains  
And buried in the snow  
Life grows underneath us  
A thousand leagues below  
Sunlight through the window  
Spilling on the streets  
No stillness in our orbit  
We keep spinning  
We keep spinning  
On repeat

Show me love, fill my cup  
The world's not empty  
It's how you want it to be  
Push and pull, the glass is full  
Float on an ocean  
We're caught up in the motion  
So we move  
(We just move, we just move)  
(We just move, we just move)  
(We just move, we just move)

We're caught up in the motion  
So we move  
(We just move, we just move)  
Push and pull  
(We just move, we just move)  
The glass is full  
Float on an ocean  
We're caught up in the motion  
So we move  
Spinning on repeat
