

Evening

YOURCODENAMEIS:MILO

Pull the evening in
And let me down
To look is to listen
So close your mouth
Hmmm...

Push the morning out
Don't let it in
Where is the sympathy
Oh where've you been
Hmmm...

Don't mess around
Don't mess up
This is everything
This is everything
This is everything
Stop messing around

It's gone too far
I have seen enough
The higher odds
Help! The warning's out
Don't answer back
Told you to shut your mouth
Don't answer back
Take what you can and give it away
Take what you can and keep it to yourself
Take what you can and give it away
Take what you can and keep it to yourself
Don't mess around
Don't mess up
This is everything
This is everything
This is everything
This is everything
This is everything
This is everything
