I Need You

Here's my song to the one Who did set me free Jesus Christ God's own Son Yeah He died for me O Your way is my way Yeah the way for me And your face is all That I'm wanting to see

I need You in my life Guide my way and light my path Night and day in every way I need You Here we go

I hear Your voice And come running to that Sweet sound You called my name When I was lost And You made me found Now I walk in this love That You give to me More like You is all That I'm wanting to be

I need You in my life Guide my way and light my path Night and day in every way I need You

You picked me up You turned me around You put my feet on solid ground Night and day in every way I need You
