

# Blinded

Yung Lean

All this ice leave me blinded  
Five star life, stay reminded  
Bitch I done grinding  
I pull up with designer if you with it lean behind it  
All these lights leave you blinded  
Five star life, stay reminded  
Bitch I done grinded  
I pull up with designer if you with it lean behind it

Bitch I'm cruising down the black lodge with black wrist watch  
Got a bad bitch sipping scotch popping tick-tocks  
Pull up with a black car gotta hit the snack bar  
Mitsubishi cruising down the lanes like its NASCAR  
They say I'm too bizarre, but I done make it this far  
Might smoke a fat jetpack out to Myanmar  
Feeling like a movie star, counting stacks with my boys in a su  
shi bar  
Uh no you won't get this far, bitch I bet you know who we are  
Wake up and I see dark, never let the dogs bark  
Leave you looking like a question mark  
I be stuntin' overseas, all my boys ride for lean  
Bands to the ceiling, smoke away all my feelings  
I be, I be getting rich bitch  
I just came to say  
Left an addict, I guess I meant that I'm an addict  
You can't spit, my money standing looking like cabbage  
Ashes steady taking trips living lavish

All this ice leave me blinded  
Five star life, stay reminded  
Bitch I done grinding  
I pull up with designer if you with it lean behind it  
All these lights leave you blinded  
Five star life, stay reminded  
Bitch I done grinded  
I pull up with designer if you with it lean behind it
