Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping (slipping away)
Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping (slipping away)

Soldiers in the night and we lurking
Medieval flowers in my church, we working
I'm in the bottom, let's be silver surfer surfing
I lived a thousand lives, but I'm still searching (where they at?)
Broken glass in my hands, sister's twerking
Money on the floor and she nervous
Paint a picture like Van Gogh, I'm cursed man
Skrtrt skrrt to the moon, bitch, I'm swerving (skrtrt)
Hit the curve and my shit perhaps it's hurting
I was down, so deep down but time's turning (darkness on my)
Darkness in my mind, flip the mattress, I got dough
Harvest on my line, I live the story I was told

Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping (slipping away)
Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping (slipping away)

I heard shooters on the roof, yeah they're trynna shoot you
I'm in a dark room, candles singing hallelujah
You think I'm gone too much, well, I think I suit you
You say I'm in my mind too much, well, I know that suits you
I lost everything, only thing I'm scared is to lose you
I heard voices in my head, yeah, they whispered to us
Paranoid, sledgehammer, that's my Ruger
Woke up, realized I had to move up
Worked myself away everyday, now my loot up
But the truth is, I wish I never knew us
God of violence, pink dreams in my two cup
I've told you this was gonna end, but I fooled you

Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping
Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping

Feels like I'm walking on water, not wine
Cut off my fingers to touch your smile
Feels like I'm walking on water, not wine
Cut off my fingers to touch your smile

Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping (slipping away)
Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping
