Yung Lean

Liquid knives check the prize, live like no tomorrow  
I'ma slide, let it ride, gotta change the spot though  
I'ma take what you have if I ever go broke  
I'm forever in the club, you forever broke, bro  
New city, different girls, forget where I'm at though  
Suffer, suffer, but I go  
(Yeah, I can't even ride a train no more, man)  
Head down in the metro

Liquid knives to the sky, it's a place of sorrow  
On the top of the tower with my bow and arrow  
Liquid lives, lost my flight when I saw the rainbow  
Lot of ice, lot of ice when we in the castle  
Where I go, where I look, they all tend to follow  
I see shadows in my dreams, they put me in chokeholds  
When we slide, go and steal it, then we call it borrow  
Put the money in motion, I ain't got no morals  
Put the money in motion, I put strings to pedal  
Ain't nobody know me, but my name so known  
Everybody around me high, but I stay low  
(Everybody around me high, but I stay low)  
Everybody around me gone, check the condo  
Everybody around me, deal with bigger halos  
Hole in my head and my heart so froze  
Everybody around me fly, fly like sparrows  
Whatever I want, gotta get it pronto  
Nine lives, like a cat, jumping out the window  
We make magic, burn cash, you know that's the motto  
Whole lot of digits when they scan the barcode

Lookin' to your eyes, I can see your brain slow  
I don't wanna know your name, I already see your soul  
Ayy, no hate, no love, love is vague  
(See, you're a product of your environment  
My environment's a product of me)

Liquid knives check the prize, live like no tomorrow  
I'ma slide, let it ride, gotta change the spot though  
I'ma take what you have if I ever go broke  
I'm forever in the club, you forever broke, bro  
New city, different girls, forget where I'm at though  
Suffer, suffer, but I go  
Try to hold on but I let go  
(They clean for you)  
Head down in the metro
